SNOW CRAB LEG MEAT

FROZEN SNOW CRAB LEG MEAT

We offer a variety of Snow Crab options to cater to different preferences. Our MSC Certified Canadian Snow Crab, *Chionoecetes opilio*, is carefully harvested in Canada, then hand-picked and processed in Indonesia. Another option is *Chionoecetes angulatus*, a wild-caught Snow Crab from Japan, also hand-picked in Indonesia. These choices deliver comparable flavors and textures, while accommodating a range of price points.

WILD CAUGHT

Grade	Size	MPC	UPC	Case	CUBE	GTIN
