

Online ordering instructions

Please review what we are offering **on the day you place your order.**

Do not be confused by anything you see, once you hit “order now”.

It’s simply a way for you to get us your info securely.

We do not need you to do anything other than to **fill in the blank box** as instructed, with what you want, and what day you want it ready.

Just **type in what you want in the blank box**, hit ‘**checkout**’, fill in the info and click ‘**submit**’. If we have any questions, we will reach out to you.

A three step process.

We will not place any charges until you come and pick you order in person.
Thank you, and we hope this will assist you in placing your order.
